Historic Property Inventory Report

Identification

Survey Name: No Name - 10/7/2005, 489 Date Recorded: 05/05/1978
Field Recorder:
Owner's Name: FALL CITY LODGE #66
Owner Address: PO Box 821
City: Fall City State: WA Zip: 98024
Classification: Building
Resource Status: Comments:
State Register
National Register
Within a District? Yes
Contributing? Yes
National Register:
Local District: Fall City Historic Residential District
National Register District/Thematic Nomination Name:
Eligibility Status: Determined Eligible - SHPO
Determination Date: 11/15/2003
Determination Comments:

Description

Historic Use: Social - Clubhouse Current Use: Social - Clubhouse
Plan: Rectangle Stories: 2 Structural System: Balloon Frame
Changes to Plan: Slight Changes to Interior:
Changes to Original Cladding: Intact Changes to Windows: Intact
Changes to Other:
Other (specify):
Style: Cladding: Roof Type: Roof Material:
Commercial Wood - Drop Siding Gable Metal
Foundation: Form/Type:
Concrete - Poured

Historic Property Inventory Report

Architect:

Property appears to meet criteria for the National Register of Historic Places: Yes

Property is located in a potential historic district (National and/or local):

Property potentially contributes to a historic district (National and/or local):

Statement of Significance: The Fall City Masonic Hall is a particularly well-preserved remnant of the social history of the upper Snoqualmie Valley. Constructed by and for Falls City Masonic Lodge No. 66 in 1895, the building replaced an earlier meeting place (Taylor's Store) destroyed by fire. The hall continues to serve as a regular meeting place for the Masons of Fall City, as well as a community center for a number of other groups. The building's visual prominence and the important role the Masonic Lodge has played in local history formed the basis for its nomination as a King County Landmark in 1994. See the landmark nomination for further information.

Description of Physical Appearance: An imposing, two-story frame building with a frontal gable roof and returned eaves, facing Main Street. Original lapped cedar siding, multi-paned sash and transoms, full width front porch with hipped roof. Recent single-story gabled addition at rear. A visual landmark, in height and massing, from various vantage points within the district. See landmark nomination for more detailed information.

Historic Property Inventory Report

Property appears to meet criteria for the National Register of Historic Places: Unable to Determine

Property is located in a potential historic district (National and/or local): Unable to Determine

Property potentially contributes to a historic district (National and/or local): Unable to Determine

Statement of Significance: Data included on this historic property inventory form (HPI) detail stemmed from County Assessor building records imported by the Washington State Department of Archaeology of Historic Preservation (DAHP) into WISAARD in 2011. This upload reduces data entry burden on community volunteers and historical societies participating in the survey and inventory of their communities. The intent of this project is directed specifically to facilitating community and public involvement in stewardship, increasing data accuracy, and providing a versatile planning tool to Certified Local Governments (CLGs). Project methodology entailed use of the University of Washington's State Parcel Database (<http://depts.washington.edu/wagis/projects/parcels/development.php>) to provide the base parcel layer for CLGs. Filtering of building data collected from each county trimmed out all properties built after 1969, as well as all current, previously inventoried properties. Translation of building data descriptors to match fields in HPI allowed the data upload. Calculation of point locations utilized the center of each parcel. Data on this detail provides a snapshot of building information as of 2011. A detailed project methodology description resides with DAHP. Project team members: Historic Preservation Northwest, GeoEngineers, and Artifacts Consulting, Inc. (project lead).

Description of Physical Appearance: The building at 4304 337th Place SE, Fall City, is located in King County. According to the county assessor, the structure was built in 1900 and is a meeting hall. Also according to the county assessor, the structure was remodeled in 1950. The 2-story building has an other form.
